

# Namibian Nomads

## GAMEPARKS | DESERTS | LANDSCAPES | CULTURE

The driest country in sub-Saharan Africa, Namibia is home to some of the most incredible, Martian-like landscapes on our planet. The deserts here are also one of the last remaining refuges for the San people – Namibia's oldest indigenous inhabitants. The journey starts at the breath-taking Victoria falls in Zimbabwe, and winds its way through the Okavango Delta in Botswana which is home to some of the world's most endangered species of large mammal, such as the cheetah, white rhinoceros, black rhinoceros, African wild dog and lion. The tour reaches its climax in Namibia with visits to the infamous Etosha National Park, Fish River Canyon Park and to the highest sand dunes in the world at Sossusvlei. Full of surprises and personal touches along the way – this is the safari of a lifetime!
